March 2014

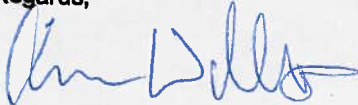

Recommendation Letter

To Whom It May Concern

This letter is to confirm DYF Technology and Networks has been a supplier to Atos since September 2012, providing services to several Atos clients in the area of Onsite Services.

Operationally, DYF Technology and Networks provide a professional service, that deliverers consistently against Atos contractual targets and enhances customer service. To date, Atos has not received any operational escalations due to poor performance. DYF Technology and Networks continue to be a preferred supplier that forms part of the Atos global partner network for our GOSS business unit.

Regards,

Simon Williams
